

## India Manufacturing Excellence Award 2008 - Corporate Super Platinum Award for Sterlite

Sterlite Industries bags **Corporate Super Platinum award** of **India Manufacturing Excellence Awards 2008** for its facilities at Tuticorin and Silvassa from M/s. Frost & Sullivan. The award was received by Mr. Prasad Suryarao, VP - Operations from Mr. Vikram Kirloskar, Chairman, Toyota Kirloskar Toyota Pvt Ltd and Sudhir M Trehan, Managing Director, Crompton Greaves Ltd, on **5th Dec'08** at **Leela Palace, Bangalore**. Mr

Frost & Sullivan, a global growth consulting company, announces Manufacturing excellence awards in two categories namely, **Large facilities** and **Emerging facilities** with various sub-categories like Process Industries, Automotive Ancillaries, Metals, Health care and Chemical Industries. With the mission "to recognize the Indian Manufacturing Capability and assess its Global Competitiveness," the IMEA awards recognize the select few who have achieved and sustained manufacturing excellence.

**Super Platinum Award** is conferred to organizations that scored well above other organizations who participated across various subcategories namely Process Industries, Automotive Ancillaries, Metals, Health care and Chemical Industries. Since Sterlite Industries participated in the award process with two facilities and both of them qualified with the score above most of the organizations, M/s. Frost & Sullivan recognized Sterlite with Corporate Super Platinum Award this year.
